Hautex exports internationally

Tuesday 15 June 2010 (2010-06-15T17:55:24Z)

Competitive distribution circuit.

Why?

We bring back 40 foot-containers. This allows us to charge very competitive prices.

We do not use intermediaries, and we manage everything ourselves, from the point when the containers leave Tana, Madagascar, to when they arrive in France.

In those conditions, our prices are competitive even to export.

Our clientele is in France and in a few European countries such as Greece, Portugal, Spain, Belgium, Italy, Switzerland, Great Britain, Ireland, Denmark, Luxembourg, Germany, and Austria. We also have clients in the United States.

Our containers have over 70 cubic meters capacity. They are unloaded at Le Havre and are then taken to Excideuil by road.

Loading the container

The container is waiting to be loaded with baskets and other goods
